## Welcome Stephen Dunn New Cable Airport Manager

July 2014 Upland California Story by Tony Settember

Stephen Dunn

Stephen Dunn began his new job, in July, as Airport Manager, filling the void left by the retired, Chuck Barnett. Stephen comes to us directly from his last post as the City Manager of Upland. Stephen seems to be a natural for this job. His many positions in city government over the last 20 years, coupled with his love for aviation makes this a perfect fit.

Born in central Georgia, Stephen grew up in Fontana California. His Dad was an avid "drag racer" so he has been around the "boys and their toys" crowd all of his life. A local pilot with the "creds" for the job, Stephen will help take the airport forward in many different aspects. Stephen earned a Bachelor Degree in Accounting Finance, and a Masters in Information Technology, from Cal State San Bernardino. Stephen is currently single and has two sons, Jonathan and David (33/32) and two Grandsons, Lucas 3 and Carter, born May 16th of this year. He resides at 16th and Benson, so he can walk to work if he wants, and is always close by in an emergency. He has been flying since 2002 and a Cable Airport tenant since 2006.

Bob Cable has been quoted saying " he has the people skills, the financial skills, and he know-how to deal with government. He is a pilot and knows this airport. He is overqualified for the job and we are all thankful to have him".

Stephen says he is tasked to update the accounting system, manage the leases, set up automatic credit card payments for leases, update the airport manuals, and market the airport to find more revenue opportunities. Some of the "low hanging fruit" (so to speak), will to be to tap into the revenues generated by the NHRA and NASCAR, plus the local conventions centers. He plans to do some "target marketing" to the pilot community, making Cable Airport a Fly-In Destination. He will be looking to make capital improvements, to help the airport make better first impressions to new visitors. Some things already in the works are a Super Unicom system, with official weather reporting, and a repave of the runway.

In talking with Stephen, I find him to be the "real deal", the "genuine article". He is easy to talk to, and leaves you with a sense of dignity and accomplishment. So ..... WELCOME MR. DUNN! Let's go flying!
